Staffing Model

Directions: The JA of New Jersey staff will inform you of the businesses assigned to your school/class.

Each student must be assigned to a business and a position. To do this:

- Locate your group size among the three categories found at the top of the model and only assign the number of positions indicated in this category's column.
- If your total student number requires you to go to the next group size (column), JA staff will instruct you on how to distribute your remaining students throughout various JA BizTown businesses.
- Contact a JA BizTown program staff person to request further guidance.
- **Note: Place only one CEO and one CFO per business.**
